**Subject: Activity at Fleetwood**

**Just a quick note to let you know that things are hot at Fleetwood:**

- 1. Real Estate open house: Wednesday October 11 we expect in the range of 50 local agents at Fleetwood for lunch and to tour the open houses.**
- 2. Street Repairs: Carolina paving started repairs on Fleetwood Drive yesterday. The first activity was to fill and seal the large cracks, to be followed with patching the paving defects.**
- 3. New Red Leaf Maples: Ed Eggers has approved and already planted six new maples up the sides of Fleetwood Drive. This gives us 10 -12 of the Maples with their brilliant red colors to be enjoyed year round and completes this project.**
- 4. Pool Rework: The vendor has been selected to replace the pool tiles and resurface the concrete surrounding the pool. Work should begin next week.**
- 5. Building Maintenance: Major repair work has started already on Building 500 to eliminate chronic leaking problems. More projects are in the works.**
- 6. Committee Staffing: The completed staffing is expected to be approved by the Board and distributed this week.**

**The response from the community in volunteering for committee positions has been wonderful. I believe this is the largest participation ever. Many thanks to all of you. We are looking forward to a great year at Fleetwood!**

**Morris**
